

THE NAUTILUS
1911-1912

THE NAUTILUS

To Our Beloved E. N. C. . . :

May you grow in usefulness and in service, prosperous in the blessing of the Lord, humbled to His will, faithful to your calling. May you send forth young men and women eager and resolute, thirsty for knowledge, and inspired by the truth of God. May the prayers of your founders be fulfilled and the sacrifices of your loyal friends be justified. Every good gift we wish you that you may perfect the work of the Lord.

"Per orduo od olto."

Honoring

Fred James Shields, A.M., Ed.M., D.D.

Professor of Psychology and Sociology

Tender, tolerant, charitable . . . we love him as instinctively as we trust him. Easy-going and placid in disposition, Professor Fred J. Shields is keen-minded and quick-witted in exchange of ideas.

Like the original absent-minded professor, "Prof" Shields's derelictions are sometimes humorous—at least his students wish that more often he would forget to give a test or perhaps to come to class. Because he dearly loves a joke, his classes are often rocked with laughter. And "Prof" laughs, too, till the tears come to his eyes, though he has related the story a hundred times and will tell it a hundred more.

He loves people genuinely. Because sorrow has touched him and left him mellowed, deepened, he is truly sympathetic, rejoicing with the triumphant, comforting the disappointed, and weeping with the broken-hearted. His religion is real; his faith in God is complete.

"That's worth a hundred dollars to you." Yes, Dr. Shields, we do profit by your wisdom, but even more by your own glowing example of patience and compassion. As students we have been impressed by your own earnest efforts to seek truth, by your benevolent spirit that is prodigal in giving of itself.

"Great are thy gifts, but better than all gifts is thy friendship."

"LET US NOT LOVE IN WORD, NEITHER IN TONGUE:

Professor Fred J. Shields

BUT IN DEED AND IN TRUTH." —1 John 3: 18

The shady walk to the girls' dorm. The Manchester steps where the boys sit of a spring evening to cool off, chat, and exchange a joke or two. From the front lawn, looking toward the drive and the Ad Building. Munro Hall—step up, boys, and take your pick.

Foreword . .

To the E. N. C. we all love we present this record of a memorable year. The 1941 Nautilus strives to represent faithfully the best year yet, and looks forward to years still better.

FACULTY

Introducing A

Prexy impresses new students with his dignified hospitality at the fall opening of school.

He reads whenever he can snatch a moment—history, theology, or biography

Prexy greets students and friends at the faculty reception in September

He is a presence. Tall, impressive, blond, with strong features and overhanging brows, he makes an imposing appearance everywhere. He grins often, but maintains dignity and commands respect at all times. His voice is loud, firm, and clear; he talks slowly. He has a slight midwestern accent he is trying to forget.

He is a pastor. Earnest, with unshaken convictions, impelled by a call to preach the gospel, he has held revival services, has preached at rallies and special services near and far. He follows God's will, his motives are God-given, he is blessed with spiritual fire.

He is a business executive. He is efficient, lets no detail escape him, perseveres unflinchingly toward his goal. Last year's triumphant \$25,000 Debt Reduction Campaign he

Familiar Figure

is following up this year by one of \$10,000 for laboratory and library equipment, pursuant to recognition by the New England Association of Secondary Schools and Colleges.

He is a person. Devoted to his family, affectionate, he leads a quiet private life. He is a serious rival of Democrat Farley—he rarely forgets a name, even remembers relative situations and dates. He is a “reg’lar fellow,” works vigorously at everything, can take a joke on himself. He is a friendly neighbor, heartily cheerful at all times. He dresses conservatively, likes blue and gray, and wears his hat well over his eyes. He has a zest for living. He is progressive, dynamic. His is the “will to win.”

He is our president, Gideon B. Williamson, Doctor of Divinity.

President Williamson joined us at the Valentine's party

A happy family group — Joe reads, his mother looking over his shoulder; Maylou puts her cheeks against her father's

They Guide Our Destinies . . .

The very backbone of our college is the Board of Trustees. Twice each year they gather from all over this educational zone to deliberate on the financial and scholastic policies of the college. Their coming creates an atmosphere of dignity, their sacrifice and interest encourage our slighter efforts.

Chairman of the board is Rev. O. L. Benedum, superintendent of the Pittsburgh District. Full of determination and vivacity, he is a staunch supporter of the school. His ready wit and enthusiastic religious life have endeared him to students and constituency. The vice-chairman of the board, Rev. Jahn Nielson, D.S. of New England, not only is loyal in giving time and effort to the school, but also contributes his share of the students—two graduates, two in school, and one on the way. Another board member is the secretary, Mr. Wesley Angell, E. N. C., '28. He represents the alumni on the board, but sometimes we find his wife busily keeping things straight in the alumni files. Looking after the finances is Mr. Maurice Emery of Warren, Pa. Besides signing his name to checks, he has two feminine attractions in college that take a little consideration.

District Superintendent Babcock, since he, too, has family connections, is much interested in the college. We don't see the other superintendents so much—Revs. Albright,

Higgs, and Cantrell—but their earnest efforts in our behalf prove that they are among our very best friends. We like their spirit.

Pastor in Lawville, N. Y., and treasurer of the Albany District, is W. S. MacPherson, who became a board member at this spring's assembly. Rev. Ira Akers of Akron is a pastor whose visits we enjoy because of his cheery attitude. May's father, Rev. W. M. McGuire, has a double interest here, of course, when he makes his semi-annual calls.

Mr. Leonard Spangenberg, vice-president of Babson's Reports, frequently comes to our campus—sometimes to talk about world conditions (he's interesting, too) or to act as toastmaster, or maybe to see his sister. Another business man is Mr. E. S. Carmen from Cleveland, who gives his wise opinion on so many questions.

Rev. Jahn Gauld, for many years connected with the college, is a frequent visitor when he returns from a winter in Florida. A fairly new member on the board is Rev. L. S. Tracy of Brooklyn, former missionary to India, whose three children have graduated from E. N. C. Rev. Jahn E. Riley, an E. N. C. graduate and active alumnus, was elected from the New England District this spring. Rev. M. K. Moulton of Baltimore and Rev. E. E. Grosse of Washington are both enthusiastic members. Rev. E. E. Grosse started a candy store in his room when he attended school, which has since developed into our indispensable "Dugout."

We are fortunate indeed to have these God-fearing men guiding the destinies of our school, and as students we give them our enthusiastic support in their unsparing efforts.

Rev. O. L. Benedum, Chairman of the Board of Trustees

Pillars of Wisdom . . .

We give you—the E. N. C. faculty, as we saw them, listened to them, and loved them. Some of them have served E. N. C. for many years; others have been with us but a short time; all of them have inspired our respect and affection. It is impossible to tell in so few words—indeed, in **any** words—what each professor has meant to us. We shall merely try to present a few glimpses of them in their natural surroundings.

The first one pointed out to new students, the one with whom we had so many desperate conferences about our schedules, the one whose sympathetic understanding was given unequivocally to all and any who consulted her, the one whom we called upon to lead in prayer in the greatest crisis, and to speak on the most momentous occasions, the one who has probably influenced more students than any other single person in her combination of scholarly intelligence and heartfelt religious experience—our dean, Professor Bertha Munro. Oh, we suppose she has her faults; she's human. But all we can say is, what, oh, what, would E. N. C. ever do without Dean Munro?

Of all the people we know, Dr. J. H. Shrader, chairman of the science department, is about the only one who can say what he thinks and get away with it. He

always seems so square and broad-minded that we feel the need of checking up on ourselves when we disagree with him. Publicity directing, class advising, science clubbing, taking flying trips to New York—yet he manages to do each task conscientiously and to deal with every student individually. A scientist who is not coldly scientific, Professor Shrader is regarded warmly by all his students.

We grin knowingly when someone speaks of the Scotch background of our pastor, Rev. Samuel Young. But underneath our joking about the collections and missionary offerings is actually a strong reliance on his sturdy, conscientious, and dependable guidance. Shrewdness, humor, wisdom, and genuine piety,—he has correlated them all into his own special brand of fairness. Professor Young's opinions count.

Professor Fred J. Shields is one who practices not only his psychology and sociology, but his particular neighborly variety of religion as well. Professor

Shields's theories are valuable because they are based on experience. Always willing—or rather, eager—as he is to be of service, unhesitatingly we bring our problems to him and are sure of sympathy and encouragement.

Conscientiousness is one of the first characteristics we noticed in Miss Mary Morris, professor of French and Spanish. A little closer view revealed a simplicity, modesty, and efficiency that awakened in us real admiration. But when Professor Morris talks to God—it is then that we are most keenly aware of her depth and character.

Digressions made by Professor Ralph Earle are welcomed by his students. His

terse, pungent reflections on life, based on his own noteworthy experience, will probably stick with us long after the journeys of Poul are forgotten. We look up to him because of his physical, intellectual, and spiritual height. Yes, "Prof" Earle is one of our favorite professors.

We like to use the term "gentleman of the old school" in describing E. N. C.'s philosopher, Professor Robert J. Dixon. True courtesy and scholarship are usually the traits first discovered by his students. But beneath that benign exterior is the dynamic of Christ and holiness—a Christ whom he preaches and a holiness which he lives.

Toastmaster, pep-rouser, alumni-organizer, moth prof, fond popo,—need we tell you who? Professor Edward S. Monn, with his consistent good humor and his

catchy, appropriate witticisms, is always in demand at banquets and organization rallies, yet in leading songs and prayers he is equally faithful. Professor Mann, we'd say, is "just a good scout."

Enthusiasm is the essence of Miss Edith F. Cove, head of the pianoforte department. A lively, energetic talker, all of Professor Cove's activities are characterized by that same vigor—may we call it punch? In her

religious life it becomes a dynamic sincerity that warms our spirits by her prayers and challenges us by her convictions.

How anyone so calm and unhurried could ever accomplish so much will always mystify us. What admiration we have for Professor Alice Spangenberg, who teaches literature, corrects proof, grades compositions, and reads literally dozens of books. Withal,

her disposition remains so unruffled that "Prof. Span" can even tell us our faults without hurting our feelings. She exemplifies cheerful godliness.

We were surprised when we first discovered that twinkle in Professor Kent Goodnow's eye. Soon we recognized that to be as much a part of him as his absorbing love for languages—from biblical Greek to modern German. We like his modesty, his humor, his whole-heartedness. We like him.

We shall all remember Professor Groves's first chapel talk, when we discovered his abundance of humor, insight, and observation. Since then, our admiration for his quiet friendliness and his strong sense of

duty has increased. Our professor of education has taught us by his own example what it means to be a consistent, Christian gentleman.

Vivid, expressive, alive—Mrs. G. B. Williamson, professor of speech, is one who is never bored or boring. Her intense,

personal interest in every individual, combined with her sympathy and excellent judgment, has won her many a confidence. For, whatever the difficulty, a talk with Mrs. Williamson means new hope, courage, and determination. Her enthusiasm in her classes and her fresh outlook make the speech department one of the fastest growing departments in our college.

He often pores over a dissection or lectures on a leaf, but the work of Verner Babcock goes farther than his job as natural science teacher. We think of him as the absorbed scientist who takes time out to

beautify the campus, to boost E. N. C., and to have a friendly talk with us on almost any subject. His progressive and original ideas are shown by the valuable plaster models he has presented to the college, by the identifying plaques placed on the campus trees, and by his interesting and educational field trips.

We didn't know what to make of him when he came, and we haven't known ever since! But there are several things we are sure of in connection with Professor Mervel P. Lunn: he knows his history and political science; he is quick-witted, intellectual, and likable; he is unconventional and means his Christianity; he knows his way around.

One of the most active phases of our campus life has been managed by Mrs. Esther Williamson. Choirs, solos, quartets; church services, programs, chapels,—she

willingly contributes to each. Always cheerful, dependable, and smoothly unruffled, Mrs. Williamson is a game sport and a steady Christian.

What would Miss Cove—or the rest of us—do without her battery of piano teachers? There is Mrs. Olive Morple who can always be depended upon for program assistance, lost-minute accompaniments, and good, sound advice on musical criticism. Mrs. Morple's combination of creativeness, common sense, and steadiness is invaluable.

Though her home is not in the hospitable Old South, Mrs. Allshouse, assistant professor of piano, is certainly endowed with a southern charm and graciousness, whether it be in patiently explaining the value of scales to a reluctant student or in singing as guest musician at a nearby church. Busy every minute, she nevertheless always has time

to help others out, from her Deon husband to the most perplexed freshman.

As she leaves E. N. C. to teach at the Nazorene College in Western Canada, we have this assurance: that she will be a good representative of the excellent piano methods which have been so successful here.

Teaching a class in history of music, accompanying the a cappella choir, and giving piano lessons, combine to keep Miss June Romig busy. Her sweet willingness to oblige and her even disposition make her a joy to work with.

But here is a stronger in our midst—Mr. Roswell C. Peovey. No, not a stronger, but a friend who is always willing to do anything for us, from helping us in the chemistry lab to driving us to Boston at a moment's notice. No, we won't forget the way "Buster" stands by. Graduate laboratory assistant, Mr. Peovey is shown with Dr. Shroder on page 13.

Always busy, yes,—but Mrs. Madeline Nease will have time to smile warmly at you, whether she is collecting late registration fees or handing you a straight A grade card. Nothing is too much trouble—not even counting up all the absences and lates you've had in Double Latin. We appreciate both her spirit and her service.

deserve such a title. Hardworking and sincere, she guards Prexy's office like a bulldog.

We tease him, we discount him, we avoid him, we run to him for help when we're most desperate. And because Bursar Henry H. Reeves is such a good sport, he takes it all in the spirit in which we mean it. We don't forget friends, Brother Reeves! Psychology teacher, business manager, and pastor, Mr. Reeves is never too hurried to cheer up the downcast with the latest joke, to offer a lagging student friendly admonition on his bill, or to give a pep talk to the haggard **Nautilus** business manager.

We still gulp when we respectfully address our blue-eyed librarian as "Mrs. Soteriades." A combination of sobriety and a twinkle, demureness and fun, she not only is well liked on the campus, but is appreciated for her efficient, capable work.

"Old Faithful" is what Mrs. G. B. called her, and Miss Ruth Ede seems indeed to

Our dean of men is the man of the hour. Mr. Allshouse appears here and there just at the appropriate time, with a friendly greeting, a word of advice or admonition, or a story about a fellow from Allentown. He's a regular fellow, a sincere Christian and an effective minister.

She stands behind the bars and takes the money for our bills—but she also hands us our checks. She is Miss Louise Dygoski, E. N. C.'s bookkeeper. Quiet refinement, efficiency plus, and a sense of humor,—she's got 'em all.

ACADEMY INSTRUCTORS

There he goes on a leisurely run across the campus—the Academy's principal and its Bible, science, and French teacher. Mr. Evangelos Soteriades, with his eternal willingness to do favors, his even good-nature, and his store of knowledge, is indispensable at E. N. C.

Mr. Donald Tillotson looks the scholar he is. Although we associate him with Academy Latin and mathematics, he also writes alumni news for the **Scholar** and helps "advise" the **Camera**. Never forgetful of his own undergraduate days, he is always friendly.

A flash of a smile, a nod, and you know Miss Helen Mullen has "caught on." That sense of humor stands by her well when she grades lit and spelling papers! She's independent, yet intense; she's sincere and truly Christian.

Brisk is the word to describe Mr. Andrew Rankin, the Academy's history teacher. Snappy Scotch wit and unusual business ability are well blended in our employment manager. Mr. Rankin's going to get somewhere.

After Graduation, What? . . .

Edward S. Mann, Alumni President

How many different occupational fields are represented in E. N. C.'s alumni group? How many graduates have married other E. N. C.-ers? How many books have been written by alumni? What percentage of graduates take advanced degrees? What is the probability of an E. N. C. girl's becoming a "housewife"? These and other questions will be answered when the results of the alumni questionnaire have been tabulated and analyzed statistically. Drawn up by the executive committee and sent out to a mailing list which was checked and double checked by Mrs. Katherine Angell, '34, alumni secretary, and Carolyn Colcord, student alumni assistant, the blanks were filled out and returned by a gratifying number of alumni and former students.

Last summer did you happen to see a group of mixed ages excitingly playing softball, or chatting reminiscently over picnic

lunches, or looking at moving pictures which had the amusing habit of running backwards at times? If you did, quite probably it was one of the E. N. C. reunions which dotted the itinerary of Professor Mann as he travelled representing the college. Local alumni organizations in New York, Maine, Pennsylvania, and Ohio, sponsored these get-togethers to keep alive friendships among the graduates and to interest young people in registering at E. N. C.

The E. N. C. dinner held at Oklahoma City brought together alumni, students, and teachers who had gathered from all parts of the country to attend the General Assembly.

During the school year the Greater New York City group has held another gathering, this time at Richmond Hill. On the evening of the Kaltenborn lecture, alumni from the vicinity of Boston met at a special dinner in the college dining hall. A spring meeting of the Philadelphia group has been planned. Such is the force akin to gravitation, which tends to bring together those who have attended E. N. C.

Democracy and efficiency have been national key words this year. They have their echo in the provisions of the revised constitution of the alumni association, which provides for an organization streamlined for quicker, more positive action, yet representative of a greater number of former E. N. C.-ers. The alumni policies will in

the future be guided by an executive board which will include the presidents of all regional organizations. Moreover, former students who have attended E. N. C. for at least two semesters may now become associate members. It is among this group that some of the most loyal supporters of the Alma Mater are to be found.

A young Nazarene pastor has used a good deal of time during the past few years. No, not the cosmetic variety, but the fine powder used in grinding optical instruments. Rev. Ray Lockwood, '36, in spare moments laboriously ground, polished, and figured a mirror for a six-inch reflecting telescope. This year, after he had constructed a barrel and mounting for the instrument, he presented the completed telescope to E. N. C. A unique alumni gift, it will be of great value to the science department.

E. N. C. has a representative in the Pacific Fleet of the U. S. Navy. Ensign Robert J. Kirkland, Jr., '39, is now stationed on the U.S.S. Brooklyn. Bob has attended the naval air school at Pensacola, has taken a preliminary training cruise, and has studied at the naval training school at Evanston, Illinois, where he received his commission March 14. Son of Rev. and Mrs. R. J. Kirkland, graduates of P. C. I., Bob was one of the first alumni children to attend E. N. C.

Matrimonially, the alumni year got off to a good start with the marriage of George Laurie, '40, and Bernice Seamans, '39, on the day after Commencement. By December 21, the wedding day of Evangelos Soteriades, '33, and Doris Goodrich, '38, eighteen alumni had been married, although there had been only twelve weddings.

"Per ardua ad alta"

"PILGRIM'S WAY"

They've been short, these past four years, and memorable. A class of eighty has dwindled to seventeen graduates. Of these, Vernon and Floyd joined us in our sophomore year while Ellen and Jimmy came in at mid-semester last year. Wesley Brown was forced to leave school this fall because of ill health; we're sorry he couldn't graduate with us.

Scotty and Jo, the inseparables, study together on the big log. We weren't greatly surprised to hear that their engagement had been announced during Thanksgiving vacation. The pussy looks quite contented. Later we met her in the lab under different circumstances.

Congratulations to the two finishing in January, Frank Comrie, valedictorian of the

class, and Jimmy Stuart, who poses for us with his fiancée. Jimmy gets our vote for best looking boy.

Shiro Kano, our Japanese student, deserves special commendation. He came four years ago knowing little English, but graduates as salutatorian of the class.

As a class we've enjoyed ourselves—a hot dog roast at Squantum as Freshmen, the Sophomore party at Professor Mann's, that glorious Junior-Senior Day last year, when we broke most of the traditions and still showed the Seniors how to have a good time! Here are

the girls in their crisp sharkskin dresses as they looked the morning of the Convocation service. After lunch we piled into cars with sealed instructions, at the mercy of the Program Committee for the rest of the day. But it turned out all right! There were soft ball, shuffleboard, tennis, ping-pong, and deep, soft chairs at "the Elms," not to mention the delicious banquet for which we were fully prepared after an afternoon in the bracing New Hampshire air.

Then we became Seniors, looking forward, uncertainly to graduation. Second semester senior "pers"—an extra date a week for the couples. No compulsory church-chapel attendance. Junior-Senior Day—this time with all the fun and none of the responsibility and work. Comprehensives—fearsome but surmountable, carrying with them the consolation of fewer exams in June. Commencement—the last whirl, caps and gowns, Baccalaureate Sunday with Prexy speaking, Class Day exercises with speeches and formalities, class gift and tree planting, graduation night with crowded gym, flowers, sheepskins, tassel changing.

It's all over! Exit the class of '41.

THE IMPORTANCE OF BEING JUNIORS

From the reception for new students in September through Commencement in June, the junior class fills a prominent role in the activities of E. N. C. Junior girls served the refreshments at the Faculty Reception in the fall and will again pour fruit punch and dispense cup-cokes after the Class Day exercises in June.

Initiation has traditionally made the class well-known to bewildered freshmen, and this year the juniors rejoiced at their powers of causing newcomers to carry their books in waste-baskets and run innumerable ludicrous errands. George Douglas takes his ease while newcomers Davis and Molony do the heavy work. Since those looking on seem to enjoy it as much as George, perhaps they are cooking up a stunt for their "stooge" to perform.

But the juniors turned the laugh on themselves when the night of their party found them drawing waves that looked like mountains and guessing cots to be clocks. With Professor Monn, their class adviser, as host, and Mrs. Monn smilingly lending assistance wherever needed, the party turned out a hilarious success.

Here's a happy looking group of juniors and seniors hobnobbing on the Mansion side porch. At the extreme left is Ruth Friend, junior president, and hoppy-go-lucky Vernon Heffern. Roe Emery and Bud Fisk are sunning themselves in the middle with senior president Les Jones on the right.

May always means Junior-Senior Day, an impressive chapel service and an afternoon of entertainment for the seniors climaxed by a banquet,—all completely arranged and financed by the juniors. The seniors appear for chapel in caps and gowns (pressed by junior girls); junior girls are decked in bright spring dresses and the boys in white flannels.

Commencement, too, brings responsibilities. From decorating the Gymnasium to ushering for Class Day exercises, the juniors are in demand. Then, having been close companions and associates of the class of '41, the juniors of this year themselves become seniors.

Sobriety Marks the Sophomores!

True to the unwritten tradition farmed by other second-year students, this year's sophomore class was quiet—possibly it was a universal class feeling for the need of higher education, or the constant foreboding of an English Lit exam.

They felt, however, their record should not be entirely void of fun, so they finished off their year with a note of cheer. An old-fashioned party—"Gay Ninety" spirit—barbershop quartets—costumes—community singing. A gala preparation for what you may expect from this class next year as juniors. Since the party, officers have been planning for a fishing trip May 30.

Paul Kirkland is finishing his second term as class president, Carl Hanks acts as vice-president, Virginia Graffam and Dorothy Simonson are secretary and treasurer respectively, and Dale Powell heads the program committee.

Fine Flock of Frolicking Freshmen

The freshmen dropped into a whirl of activity last fall. At first effusively welcomed by the ABG's as they sought new members, freshmen came to a rude awakening when the juniors started initiation. Leased out as stooges to upperclassmen for a few days, they soon became chastened and humbled.

Full of initiative and pep, the freshies planned a Halloween party so interesting that they decided to hold a formal party second semester.

Regular class meetings, class prayer services, and enthusiastic support of all enterprises, held the class together. When Nick Yost left school, Ken Robinson became president. Other officers: Virginia Oldham, vice-president; Irma Stickle, secretary; Bill Shay, treasurer; and Irving Jones, chaplain.

ACADEMY

Did you know that one of the Beta baseball pitchers is not an Eastern Nazarene College student? And neither is the bass in one of the quartets. In fact there are twenty-add members of the campus community taking a very active part in its life who are not enrolled in the college. They are the students of the sister institution, Eastern Nazarene Academy.

This year there are six members of the academy graduating class. Effervescent Bob Emmel comes from Pennsylvania. Generous, sincere, he is never at a loss for words in a social conversation or a testimony meeting.

Alert, bland, jaking Gertrude Chandler claims Rhode Island as her home state, but in intellectual pursuits she exhibits the characteristics of a Missourian.

Athletic, leisurely, and apparently care-free is Bill MacKay, with a winning smile and a love of practical jokes.

Courtesy, a neat appearance, and business ability are the capital of Elmer Kauffman, campus brush salesman, whose interests lie chiefly in the field of biology.

Light-hearted is Dick Stumpf. In spite of his six feet and his mellow bass voice, he is the spirit of youth, bubbling with enthusiasm and good fun.

Serious is Dick Whitmore. Eager to learn, intense in his likes and dislikes, he has a sense of responsibility befitting a married man. His humor and friendliness are quiet but none the less genuine.

Most of the students expect to return next year as college freshmen. In addition, Mary French, Dick Lewis, Lenore Mallory, and Melvin Parker, members of the senior class, although not graduating, will take college work while they complete their matriculation.

Occasionally the Academy emerges as a social unit from the general campus life. Autumn and spring outings, senior sneak day, and the special academy commencement exercises help to maintain the identity of its student body.

ACTIVITIES

"Time to be a Gamma," says Anna Mary Shoff.

Right on the dotted line! Peggy signs her Margaret Malony in favor of the Betas.

Oh, oh! Did Doris Pearsall bite off too big a piece, or strike a loose tooth? Ginny Graffam makes attractive Alpha bait for newcomers Eddie Banham and Elmer Kauffman.

Isabelle and Ted keep a sharp look-out for potential Gammas, while Nick Yost compares notes with Johnny Fair. You guessed it! It's Rush Day!

Then began the enticement of the new students. All three societies presented a joint song and speech program in the dining hall, with Anna Mary Shoff, Gamma President, taking laurels with her "Without a Song."

"Bill" Benson got his Alpha Society off to a good start with a hike and early breakfast in Merrymount Park; and the Gammas soon followed his example with a swift excursion. The Betas were satisfied with an ice cream dessert in the dining hall.

THESE THREE

E. N. C. suddenly awoke with a start last September to discover that a successful Student-Get-Student Campaign had brought nearly sixty new Freshmen.

Then society life began. Old students who had grown lax in society spirit became enthusiastic, and soon the Cardboard, Munro Hall, and even the Chapel resounded to "Join the Betas", "Look at the Gamma record", and "Alpha, Alpha".

The Betas early took the lead, with individual and society domination of the Student-Get-Student records. Irving Jones, their president, was first prize winner, with two Beta runner-ups.

Bill Benson, Alpha's president first semester (Bill Restruck led the purple and white second semester); Anna Mary Shoff, the Gamma leader; Irving Jones, heading the Betas.

And then Rush Day! Every student was to make his choice of the societies before evening, and a large Alpha A, a Beta invitation, and a Gamma Delta decorated the Administration Lawn. E. N. C.-ers, especially newcomers, will never forget that day. When chapel was over, they surged toward the Ad building. While a Gamma Blue and Gold airplane whirled overhead, freshmen rushed to join their favorite group, or were besieged by all three contestants.

Out of this melee, framed by a flowered E. N. C. in the background, the Betas again emerged winners, with the Gammas a close second for new members acquired.

Society spirit and cooperation replaced hazing, and the Betas presented the first literary program, a patriotic Armistice, in honor of Democracy. The Gamma singers competed in a popular program of Stephen Foster songs, and the Alphas presented a Christmas Carol Dream with Millie Scherneck as the sleeping star.

Inter-society football introduced a surprising number of new students, with the Betas surviving as the first undefeated team in tri-society history.

The football champs gave an old-fashioned box social in the gymnasium to raise funds for new basketball suits. Basketball was

noticeable for the new interest in the girls' playing, with the Shoff sisters supporting their Gamma team to win. Almost the same crew that won the football trophy for the Betas carried off the basketball honors.

But aside from sports competition, interest was still keen in the literary activities. The Alphas presented a trio and several readings in the first of a series of after-dinner programs.

The Betas initiated a drive for better school spirit by giving an informal dinner party to which the faculty was invited. A formal Alpha dinner was followed soon afterwards by a Gamma lawn party.

Two of the societies, the Betas and Gammas, purchased pins and keys. The Alphas had done this the previous year.

Perhaps the best work of the societies as a whole was done in connection with the H. V. Kaltenborn program. The groups contested in ticket selling, and helped greatly in making the lecture a success. The Gammas were winners of the contest.

The 1941 Student-Get-Student contest now holds society attention. Regardless of who wins, E. N. C. is fortunate in having three wide-awake organizations, which are all working to a common end—the improvement of their college.

Alpha Christmas program—Gwendola Haines, narrator; Millie Scherneck, the sleeping star; Bill Benson, soloist with the girls' sextet

Setting for the Beta patriotic program

STUDENT COUNCIL

VOX POPULI

Lawrence Wolker, "Cordboord Evongelist" and senior, headed the Student Council this year, ossisted by Anno Mory Shoff, red-headed Gomma president.

Since the need of o new student body constitution was keen, the Council mode this its first considerotion. With the help of suggestions from the students, the old constitution was revised to fit the needs of o new order.

The Council continued to contribute to the spiritual life of the college by instigating group prayer meetings during the lost revival. The fifteen-minute devotion period from seven-thirty to seven-forty-five in the morning is also their innovotion.

Every two weeks the Council hos charge of o chopel program. One of the most outstanding speakers was Dr. Ayers of the Wolloston Congregationol Church who spoke for them in Morch.

BOOKWORMS BARRED!

A scholarship vio the 1939 visit of Britoin's monorchs to Americo—preposterous? Certainly not, ot E. N. C. A film recording of the memoroble tour attructed mony an Elizabethon admirer to the Honor Society's program, which helped to provide o tuition scholarship for some capable student next year.

Honor students, it might be emphosized, don't necessarily pore greedily over profound philosophical treotises ond complex scientific diograms **all** the time. At leost, their orgonization hos found the opportunity each foll to pursue elusive students with the persistent question, "Hove you mode your contribution to the fund for mogazine subscriptions yet?" until the periodicol rock in the library is insured ogoinst borrenness for onother twelve months.

Unique because its purpose is not the investigation of o porticular field of the orts or sciences, the Honor Society has not thereby forfeited its place in the activities of Eastern Nozorene College but is making its own contribution to the vitality of the school.

HEADLINES AND DEADLINES

It is Saturday night, ond o Molden printer's office gives evidence of the E. N. C. influence. Golley proofs ore scottered about significantly as o "dummy" of the next edition of the "Compus Comera" tokes shope under the skillful dictotion of its editors. Posted on the third page is the current column of the Coed Code, with its teasing bits of feminine information. Nearby is a full-length feature story, perhaps thot ostounding dream of the Valentine party. Indicotive of the "Comera's" spirituol emphasis is the column of religious comments which the editor hos just finished proof-reading.

Front page headlines ore olready tersely proclomining the coming Koltenborn program or the spring tour of the Men's Chorus. Lost minute sports news is being added to fcurth page copy while make-up of the second page is juggled to balonce editorials ond on intercollegiate syndicated feature. The lost ad is odvontogeously inserted, the lost nome checked for spelling, ond the "Compus Comera" goes to press.

STUDY IN HARMONY

The blare of clarinets, the trilling of flutes, the rumble of the bass viol, and another Tuesday night orchestra practice has begun.

The first few minutes are devoted to "tuning up," until the stragglers arrive, then "Stro-della" or "Babes in the Wood" is played, while Mrs. G. B. Williamson accompanies with "Trumpets, you're flat," "First violin and piano alone," or "John, what are you doing?"

Their most popular composers are Victor Herbert, Rachmaninoff, Rossini, and Tschaikowsky. The group presents two annual programs in addition to playing at Commencement exercises, while individual members perform in other programs and in church services. Each rehearsal ends with a hymn—"When I Survey the Wondrous Cross" is the favorite closing number.

In addition to the good musical training they receive, the members find that playing in the E. N. C. orchestra can be a lot of fun.

"OH, FOR A THOUSAND TONGUES TO SING"

They love to sing. That is the secret of the success of the Male Chorus. Their enthusiastic leader, Vesey Stemm, holds the boys to a strict schedule, but they are as eager to work as he is.

For the second consecutive year the group went on tour, opening in East Rockaway, N. Y., March 21, and then swinging through the Eastern Educational Zone for sixteen performances. Upon their return they visited several churches around Boston and gave a Friday evening program at school.

With the purchase of tuxedos this spring (\$4.75 at Joe the Tailor's) the group has improved in appearance. Their repertoire is larger this year, including classical and modern numbers, secular as well as sacred music.

The Male Chorus has proved to be an effective good-will agency for the school. By all indications we can expect a record crop of freshman girls next fall.

SING FOR YOUR SUPPER

Led by Mrs. Esther Williamson, the A Cappella Choir has warbled its way through another year.

When Jimmy Stuart (our Canadian fashion plate) left school, the forty elected Lee Powell to replace him as president. Ken Pearsall and Jo Sweigert remained business manager and secretary-treasurer, respectively.

Some took the high road and some took the low, but they all got to Scotland one Sunday night to sing at Prof. Shields's church. Between trips to Malden and East Bridgewater, the choir sandwiched in a Christmas program at the Wollaston Church of the Nazarene (plug for S. Young) and a Christmas chapel period at E. N. C. (plug for G. Williamson).

They made a day of it March 16, singing at Lowell and Haverhill. 'Way up to Portland, Maine, they journeyed on May 4, and, with a mere breathing spell between, sang with the orchestra in the spring concert May 16. Monday of Commencement week, this year's forty will bow out in their final performance.

AS YOU LIKE IT

With a pilgrimage to the shrines of Concord—Emerson's prim white house, the Alcotts' Orchard House, the memory-haunted rooms of "The Wayside", Thoreau's Walden Pond; with spicy, interest-packed meetings, usually ending in feverish discussion or good-natured controversy; and with new additions to the Club's collection of books, records, and souvenirs, the "Lit" Club feels it has had a busy year.

Highlights of the meetings—Mrs. G. B. Williamson's reading of "The Congo" in our study of Negro Literature, the chatty session on that charming human story of **Mrs. Miniver**, Miss Munra's and Miss Spangenberg's literary sidelights in their vivid account of their western trip, our informal study of the influence of the age on music and literature.

Our purchases—a record of Vachel Lindsay's reading of "The Congo", another of Robert Frost's reading of "The Death of the Hired Man", and a book on "The Wayside" by its present owner, Miss Margaret Lathrap.

Congratulations to President Virginia Graffam for the school's peppiest club meetings.

H₂O ON THE BRAIN

Science waxes fat at E. N. C. The year's first event was a clam bake on Squantum Point. Potatoes baked under a fire of driftwood, clams dipped in melted butter, with potato chips, doughnuts, and steaming coffee, filled a crowd made hungry by the chilly October air.

In February the club held a banquet in the Blacksmith Shop in Whitman. The turkey dinner vied in interest with Dr. Shrader's account of how he solved the mystery of the Baltimore jail break.

The club sponsored a trip to M. I. T. for lectures on "The Chemistry of Paper" and "Color Photography." Most of the members also went on the specially conducted tour of the Massachusetts General Hospital.

Mr. Welsh of the Wollaston Camera Shop spoke on photography at one of the Club's meetings. Rev. Daniel Linehan, S. J., of the Weston College seismology department spoke on "Earthquakes" at the club's Friday evening program.

DATES IN REVIEW

Except for the autographed eggs that the new members carried in their pockets during the week of informal initiation, the activities of the Historical Society have been exclusively intellectual and educational. A conducted tour to the North Shore early in the year made history live anew as students visited the battle grounds of Lexington and Concord and the scenes of Salem's witch trials.

"Will Roosevelt Save the World for Democracy?" was the subject of Leonard H. Spangenberg on Friday, March 7. The vice-president of Babson's Reports painted out that the mistakes of Germany and the Allies put Roosevelt, as President of the United States, in a position to become the hero of democracy. In the fall program, William C. Edwards gave the story of historic Quincy. The society also presented a Lincoln chapel program in February. Much of the credit for arranging the lectures and the chapel program must be given to the president, Harold Parsans, and Maxine Fawcett, secretary.

THEY ALL CAME BACK

The Psychology Club's activities were featured this year by two trips, one to Danvers to the hospital for psychopathic cases, and the other to Waverly's institution for the mentally defective. At Danvers the students were given the rare opportunity to sit in on a clinic where the patients were actually tested and interviewed. The club members returned to E. N. C.'s campus with up-to-minute material on the insane and mentally defective, each fully prepared to analyze his roommate's conditions and prescribe the latest remedies.

A delegation headed by Professor Shields attended the New England inter-collegiate conference on psychology held at Durham, New Hampshire, a trip never before taken by the club and definitely a step in the right direction to obtain favorable notice of E. N. C. by other colleges.

Later in the year the Education Club and the Psychology Club presented a joint program contrasting the old and new methods of testing and teaching.

President, Earl Scott; vice-president, Earl Heinlein; secretary, Anna Mary Shoff; treasurer, Bill Restruck.

WANT TO BE "EDDICATED"?

The Education Club started the school year by initiating six freshmen into their society in a Halloween masquerade party. Since then their meetings have been more intellectual, perhaps, with talks by several educators. Professor Groves, new head of the education department, outlined the curriculum which should be taken as background for a teaching career.

At one meeting the entire club took Strong's Interest Inventory Test. Since this test is reputed to be one of the best of its kind in the country, some of the results were most enlightening. Nursie found she was cut out to be a housewife; Rice that he had possibilities as a Fuller brush salesman; Irving Jones will make a successful beauty operator.

Vernon Heffern, senior and erstwhile softball pitcher, heads the group. Other officers are Betty Zimmerman, vice-president and Laura McKinney, secretary-treasurer. Professor Groves is the adviser.

IN QUEST OF THE IDEAL

The Philosophy Club has been reorganized! Its ancient predecessor, after being discarded for almost eight years, has been dragged out of the closet, dusted, rejuvenated, and prepared for active use. With approximately twenty members to form a nucleus, the new club promises to be an active organization in school life. Already it has voted to give the library one book a semester dealing with the latest philosophical thought.

Meetings are given over to talks by teachers, members of the society, or members of the community who are fitted. After each lecture an informal discussion adds to the interest and keeps wits sharpened.

Dick Howard is the president. Since Eleanor went home he is learning to take the bitter with the sweet—a philosophic attitude! The boys almost captured this club exclusively, but we see that Jean and Ellen gained a foothold.

COLLEGE MISSIONARY SOCIETY

Professor Earle, A. J. Kauffman, W. Jones, Mingledorff, E. Rittenburg, Boggs

BRINGING IN THE SHEAVES

A really significant indication of the sincerity of Christian endeavor manifested by the students of Eastern Nazarene College is their whole-hearted support of the Evangelistic Association. Replacing the L. E. S. of other years, the Association is carrying on the same worthwhile work.

Members, many of whom are looking forward to full-time Christian service, present services of song, testimony, instrumental numbers, and gospel messages in the missions, churches, jails, and institutions of Boston and neighboring cities. Outstanding among these activities is the weekly "hymn-sing" conducted in the Quincy City Hospital by a group under the leadership of Warren Mingledorff.

This work is purely a "labor of love," and in it the students find a means of expressing to the world, with all the zeal and ardor of sincere Christian evangelism, the richness and fullness of the true Christian life.

Hazel Fraley, president; George Douglas, vice-president; Marjorie Whispel, secretary; Oscar Stockwell, treasurer.

THE SPIRIT-CALLED

No departmental society of E. N. C. is more representative of the purpose of the institution than the Student Ministerial Association. Composed of advanced ministerial students, the society has several members already in active Christian service.

The "S. M. A." is under the leadership of Rev. Paul Hetrick, pastor of the Church of the Nazarene at Wareham, Mass. Another of its members, Rev. John Nielson, is the pastor of the Church of the Nazarene at Franklin, Mass. Still another, Rev. Lawrence Walker, is accomplishing the almost incredible feat of attending school on the outskirts of Boston, and pastoring the Hoople Memorial Church of the Nazarene in New York City.

The reading of a paper on "The Conversion of Augustine" by Professor Young, faculty adviser, and the reviewing of "The Quest of the Spirit" by its author, our own Professor Earle, were features of the regular meetings.

Paul Hetrick, president; Earl Scott, vice-president; Albert Kirkland, secretary; George Douglas, program committee chairman.

LANDS ACROSS THE SEA

From Albania to India to New England may seem to be but the outlines of the extravagant travel plans of the dreamer, yet the College Missionary Society has brought E. N. C. into a vital contact with these widely-separated sections of the world through the inspiring missionary speakers it has presented.

Because of E. E. Jacques' illustrated talk, we almost feel that we have visited picturesque Albania, where ambassadors of Christ have only recently been able to withstand the dominance of Mohammedanism and establish the country's first Protestant church. We shall not soon forget Miss Elizabeth Earle's stirring account of primitive, pagan Nepal, still completely closed to Christianity. Nor can we disregard Rev. T. M. Brown's effective antidote for war conditions in the world today—the thorough spreading of the gospel.

Although a young organization, the College Missionary Society has been active throughout the year and is an integral part of E. N. C.'s spiritual life.

Front Row: Graffam, V. Jones

MAJORS AND MINORS

With the haunting nickname of "Professor Cove's bargain" lingering like a charm over E. N. C.'s new victrola, the Music Club has found itself in the spotlight as the donor of this appropriate and widely useful gift to the school. By the aid of the resourceful instrument music enthusiasts have thrilled to the powerful measures of the "Hallelujah Chorus," searched out latent talent through the famous Seashore tests, and evaluated from experience the reality of Debussy's "Dream of a Naughty Boy."

Members of the organization, realizing that music has attractions for many of those beyond the limited circle of music majors and minors, have frequently opened its meetings to any in the school who would enjoy the delicate grace of a Mozart symphony or the "refined jazz" of a twentieth century composer. And though the club would not recommend the clashing discords of Stravinski to soothe the proverbial savage breast, yet it guarantees evidence of the charms of music to any sceptic who applies.

SHIP AHOY!

With all hands on deck and Captain Lois Emery at the helm, the **S. S. Greenbook** set sail for its 1941 cruise.

The annual freshman publication with its nautical theme presents in a small way the voyage of the freshman at Eastern Nazarene College.

Each section of the book represents a new port. The special seaport on "This Is How They Said It" is packed with originality and spice, while the Port of Themes reveals the versatility and ability of the freshman writers.

Not entirely in vain that aimless casting about for a theme subject each week, those rewritten papers, the endless corrections, the almost hopeless search for the word that "fits", for here in the **Greenbook** are the representative selections of the class, their contribution to the growing stack of freshman books in the library.

The captain, crew, and passengers all worked to make this voyage one of the most enjoyable of the school year.

WOMEN ONLY NEED APPLY

The house council—what is it? The members are the dean's "commissioned officers," elected by the girls each September to help Mrs. Williamson to "rule the roost."

"Friendly," the president, is a junior, up to her ears in extra-curricular activities and Ken. Her task is to provide leaders for the girls' prayer meetings held nightly in the parlor. She's done good work.

The girls, with tongue in cheek, usually elect their monitors unanimously. "Choose someone who goes to bed early" is the word that passes around under cover! Sometimes the "cut-up" gets the bid, to the huge amusement of all concerned.

The council has worked hard this year to raise funds for the new parlor suite. Mrs. Williamson and the girls have planned long and hard for the parlor improvements.

One innovation was made this year as a remedy for "sleepwalking" after 10:30. Report to the office six nights at ten o'clock. It cures even the chronic offender if applied often enough. Ask Anne Roth!

But Jack's Not a Dull Boy. . .

"I warked my way through callege" has been the proud boast of many successful men. If this is any criterion, then E. N. C. should produce her share of famous people, for practically every student warks off a good share of his expenses and quite a number wark their whole way through callege. And such ways they do devise to earn thase preciaus pennies. Take Jahnnny Young, for instance. Usually John is the number one scrub and suds man in the school laundry—Ken Robinsan is number twa. But Jahnnny spent spring vacation this year chang-ing push buttans an radia sets after all the statians changed their frequencies.

Wha said callege isn't a good preparatian for life? Here's Ken wringing out clothes. Other laundry workers are Rase Marie Salvia and Josephine Sweigert.

Bill Restrict, our version of Old Man River, tried out a new wrinkle this year. We were used to his selling bus tickets, simanizing autos, running the baackstore, and washing pats and pans at the caterer's, but he literally stapped the crowds when he appeared as Santa Claus in Sears, Raebuck at Christmas. It must have been a profitable job though, for Bill is on a diet now. I didn't know Santas had ta go into spring training.

The campus crew keeps all the fellows busy in all their spare time. Practically every fellow gets his start in the institute on the business end of a lawnmower or a rake. Jerry Waodcack has been running the gang this year and Babby Nielson has played nurse to all the green young things in the hothouse.

Charlie Plaskett could be seen reading the newspapers at the librarian's desk almost any day—that is, the days he wasn't sleeping. Our ather student librarians never seemed to get time to read. Rachel and Ruth were kept busy shushing everyane.

One of our better-known freshmen is operating on the theory that it is easier to sit down and puff than to stand up and puff. All those little bays wha appear on campus carrying black cases aren't Fuller Brush

salesmen. They take carnet lessons from Maybury—at seventy-five cents a turn.

"Dip" Dickson took the baker's job—for better or worse. And the rest of us took bicarbonate. Dip should have been named Pinky after all the pink dye he squirted into cakes and puddings.

Pfautz is still at his old job—pressing pants at Kachel's. He also took on a new job in New Bedford—supervising telephone operators.

We had quite a crew of grease monkeys this year—the Weller boys, Mel Parker, Clair Dornon, Paul Pepper, Marvin Zimmerman, Lowell Crutcher, and even Ralph Sabine took a whirl at it through the spring. That's a bunch that can really gas, too.

The union finally caught up with the boys at the Quincy market, so not many are left now; but between the A. & P. and the First National Stores all the butchers and vegetable rustlers managed to keep jobs. Sears is so full of E. N. C. fellows it is becoming known as Nazy, Roebuck and Co. Calhaun still hangs on at Gilchrist's. Dale DuVall is the paint and paper maestro now. (How do you like that blue and cream scheme in the Cardboard?) Kana cares for the tennis courts and upholds Axis politics. Wachtel is an ace janitor—and he still holds forth on any subject. But it's all a lot of fun.

Working girls? We have plenty of them, and they do everything from stenography to fancy cooking. Ruth Sickler, above, works in the Registrar's office, but we have other students working for the college in the library, at the switchboard, and correcting papers.

Many of the girls do housework, take care of children, or cook to help earn their way through college. Others work in stores, especially during the Christmas and Easter shopping sprees. Orpha Case is a dietician, Audrey Davis grinds lenses for an optician, and Daris Pearsall is a receptionist for a group of doctors.

E. N. C. students have found that there are dozens of ways to earn money when you really need it, and that a college education is available to those who are willing to work for it.

E. N. C. Potpourri . . .

A college year—busy, varied, and all too brief. We work, we study, we play. In the columns below we tell you about some of the things that happened to us—the gay, the sad, the interesting, and the dull. All these events made up a school year at E. N. C.

Last Stop—H. H.'s Two-by-Four

"Prof, will you please sign my card?" "Gee, matric to take yet!" "Rhetoric! What's that?" "I'll sit through logic any day rather than take math!" Through the rigors of registration to the bad news of the bursar—this is the freshman's first experience, and the upperclassman's necessary evil. Students are not the only sufferers, however. How would you like to sit all day signing your name to little blue cards? Or figuring out credit hours for a conditional freshman with twenty hours of work, matriculation, and a girl friend?

Lee Powell is cooking up a good one to tell Brother Bursar. Don't know why Scotty, Jo, Jerry Woodcock, and Earl Brinkman should be so gleeful about it all. It'll be their turn in a minute. Such is the carefree attitude of E. N. C., however.

In the library faculty advisers help the students make up their schedules. "Just can't do that, son, not with your off-campus job besides," admonishes Professor Dixon. Stockwell is supercilious. He knows he

can combine plumbing with personalism. Sam Cole scratches his head; he has a wife to support, besides.

Writer's Cramp and Smiler's Smirk

First you were handed down the line ("Don't fire until you see the whites of their eyes!"), then you chosed around being nosey about people's addresses (the Humour Lod always included telephone numbers, too); you ate and drank a bit, then listened to greetings, salutations and music. Fun while it lasted.

There's Reverend Reeves, jocular as usual

... "Prof Spon" seems to be either lost in high-flown reverie, steeling herself for the next hand-grip and introduction, or perhaps merely sniffing out a commo splice . . . That's Mrs. Shields on the extreme left, very resigned . . . Professor Dixon and his wee wife are next, welcoming several unknowns.

"There y'ore!" Rose Morie Solvio mokes on excellent waitress. Bob Shoffer looks complacent, Anne Lyle looks eagerly expectant, and Professor Eorle just looks. That's "most" of Professor Cove behind Bob.

Great Li'l' Society, Yessir!

Here's the crowd milling around the booths. The Gammo booth is in sight in the right background. Prof. Monn, with his movie comero, is on interested spectator. Old students are busily trying to put a bug in the ears of likely-looking freshies; freshmen

are looking bewildered and very uncertain. "Your college coreer is ot stoke!" says one. "Everyone from Podunk is in our society," argues another.

The day when all newcomers learn their A B G's, when members of each Greek letter group demonstrate their "gift of gob," and indecisive victims are "railroaded" into whichever organization boasts the strongest mon power—Rush Day. Twentieth century advertising played an important part in 1940's choosing day—Poul Pepper and his blue-and-gold plone, Alpha lollipops, and Beto chocolate kisses.

Groans from a Greenie

"Fellow students, I proy you, have mercy! The tortures I have endured merely to gain the esteemed title of 'one of us'—I will mention them. First, I must needs attire myself in most ludicrous guise for two whole days. I am compelled to withdraw myself from the sidewalk when an upperclassman opproaches; to address my tormentors as 'Mr.' or 'Miss'; to rotote about the flowery circle; to cover myself with humiliation and confusion by reciting and singing of the bosement board. In conclusion, I must subject myself to the terrors of all and sundry punishments inflicted upon me by my big brothers and sisters, and, if my sex is the gentle one, I must ploy leap year and escort an upperclassman on Fridoy night. Oh, gentlemen, lodies, I beseech you, kindly desist!"

Crawl, scum, crawl! And they do, with their noses to the (grind) stone and clothes

facing west instead af east (ar t'other way 'round). Bob Brenner is in the two-taned sweater.

"Why, Jae, did you drop your baaks? Say, naw, that's toa bad!" Eddie Edwards plays the solicitous upperclassman to Lampshade Joe, wha doesn't mind anyway, and Jean Smith just laughs and laughs and twirls her umbrella.

United We'll Fall—Through

"Yea-a-a-ah, Fourth! Yea-a-a-ah, Floor! Yeah, Yeah, Fourth Floor!"* Once upan a time there were sixteen maidens living atap a red tower, guarded by a black-haired Vermont maid wha wasn't a bit syrupy. During the caurse of time, their number decreased to thirteen but their spirits did nat do likewise. They held rallies, jamborees, banquets, and canventions, and ramped their way through an earthquake, a black-out, a blizzard, and many other freaks af Man and Nature. A jally bunch of artists, acrobats, and literati, gradually they acquired several Prince Charmings wha serenaded them beneath the maon each night. Naw their tormented neighbors below haped ardently that this change af status would saber the boisteraus thirteen. But it didn't, and the maral of the tale is this: Don't be a nole sissy, ar take that catton out af your ears!

*Reprinted though the courtesy of The Fourth Floor Clamour Girls.

Prestige for E. N. C.

November 22 and March 24—mark these dates an your memary calendar with a big red "X"! Far in the fall af 1940 and the spring af 1941, the Quincy communitie became more acutely aware af Eastern Nazarene Callege than ever before. Raland Hayes, internationally knawn Negra tenar,

sang at Quincy High Schaal ane Friday in November and left an unforgettable impression of interpretative artistry upan the minds af his student and citizen audience. Hans von Kaltenbarn, eminent radio news cammentar,

tar, lectured ane Manday in March and challenged with his farceful message the

consciousness of his hearers. On both occasions, people whispered and wondered—"What is this Eastern Nazarene College! . . . Where is it? . . . Why? . . . How? . . ." Our future will answer them.

Home Was Never Like This!

Running the gamut of welcomes, from Wachtel's "Closed for Repairs" to the Zimmies' "Dew Drop Inn," hosts of visitors tramped through the dorms, ate whatever was provided them, complimented everybody, jounced on mattresses and easy chairs, laughed at all the jokes, and, back in their own rooms, offered hospitality. A light burned brightly in every room on display until the tour was over—then the gym came in for its share of the fun and housed three rollicking circles of Jacob and Rachel, Simon Says, and other Mother Goose games.

Howard Andree and Jimmy Stuart entertain in their prize winning room in the Cardboard Palace. Suave and courtly, these two gentlemen show us the true meaning of "horsepitality." Who would have thought this was once a stable?

"One Dog—Bleed 'Im!"

Breakfast is served between 7 and 8 a.m., brunch all morning, afternoon tea all afternoon and midnight snack 9 to 11 p. m. (Schedule and menu subject to change at proprietor's will and without notice.) Everything from soup to nuts (sorry, no finger bowls) is yours for a nominal fee (no penny, no pretzel) at the Dugout. Betty Koehler, erstwhile pro-

prietress, even provided entertainment the first semester, and Vesey Stemm has added sandwiches, sundaes, milk shakes, and occasionally Donnabelle as waitress. But E. N. C. thinks of higher things than food, for one freshman wrote: "The Dugout is a place where people meet, eat, and fall in love".

Say "Ah!" Framed in the rather bleak atmosphere of empty milk bottles, scrubby tree, and Dugout stone walls, Peffer strikes a characteristic pose, button hook pinkie and all.

Noel

Frosty nights and silver moons, the green and red of the rushing world outside preceded the climax of our Christmas season: the party. Dinner, entertainment, formals, gifts from unknowns, and even Santa Claus—all this we had.

Professor Shields helps the Salvation Army Saint Nick with the gaily wrapped

presents—a pity Mr. Claus couldn't get through our crepe-paper chimney. Mrs. Shields wonders what Howard Andree is doing—can it be peeking? Why, Howard!

Candle Lightin' Time

(Ed.'s note: The boys' candle procession on the Mansion roof the night the electric lights went out, inspired this bit of Odgen Nash poetry.)

"I'm gonna let it shi-hi-ne, this little light of mi-hi-ne. . . ."

Oh, breathes there a soul so dead who would not find cheer in this chorus!

(If you don't you sure annorous!)

Which all goes to show that every cloud has a silver lining.

And every "blackout" brings forth a merry band of candle-owners who are not averse to reclining.

—In the dark on the roof!

(Please, Mr. Nash, don't be mad; I didn't mean it.)

Sartorial Spree

By waiting until the second semester, the male student body "made a haul." In other words, they gained those two sprigs of maple leaf, Bill Summerscales and Bob Clifford. And thereby hangs the tale of the boys' pajama party, when rules (and clothes) were off for one glorious evening. Reports which filtered out varied in detail, but non-participants understood that food was abundant, entertainment was ample, and fun flowed like Niagara. New students formed the butt of oldsters' jokes. Bill Cole in his what-chumycallums revealed his knowledge of womankind, and Don Thomas revealed his latent powers as The Great Lover.

Please Be Mine

They got "fixed up". They didn't want to go in the first place, and then they had to be paired off—of all things! . . . He sent a lovely corsage, though . . . And the cleverly decorated dining hall lends proper atmosphere . . . The games are fun—everybody seem so happy . . . Goldie's reading is neat . . . Bill sure looks funny milking that cow . . . And Wachtel and Hedberg—what a couple! . . . Also Orpha Case and

Joe Parker—say, this is better than Fibber McGee any night! . . . Oooh—Prince Charming Calhoun! Millie is the sweetest Valentine here . . . It's twelve already . . . what's he saying? Why, I'd love to!

Important In Our Lives

We tease her by calling her our "aspirin nurse," but our tall Beatrice Savage means more to us than that. Her cheerful disposition and her love of good fun have often benefited us as much as her prescription. Her conscientiousness in her studies, her quiet Christian life, and her ability to fit into a variety of situations gracefully have won for her our admiration.

When we want our pillow cases from the laundry, or someone to find a substitute for an odd job, or a bit of hard sewing to be done, it's Miss Braley to whom we turn. When we discover a shabby chair elegantly re-upholstered or some old hymnals neatly mended, we sense Miss Braley's efficient

touch. And when we see her, with her gentle face and beautiful white hair, inconspicuously fitting into any place that no one else seems to fill, we are convinced of the indispensability of Miss Broley of E. N. C.

For the Deserving

New scholarships are being added to an already imposing list. Of local interest is the offer of full tuition for one semester to two Quincy high school seniors, a boy and a girl, to be awarded on the basis of character and scholastic ranking.

Then, too, scholarships are offered to the highest ranking high school seniors on this educational zone. The Ontario District advances one to two hundred dollars toward their students' expenses. In addition to these, a loan fund for deserving undergraduates was established last year by Elmer H. Kouffman, Hartford, Connecticut, business man who has sent all his children to E. N. C.

Several scholarships for one semester's tuition are awarded each Commencement. John Nielson, senior, holds the faculty scholarship; Modeline Hiller, another senior, received the Honor Society award; and George Douglas, junior, won the Albany District fund. The Washington-Philadelphia District prize was divided between Betty Zimmermon, sophomore, and Lyal Calhoun, sophomore, Camera editor.

East Side, West Side . . .

We saw the House of Seven Gables, on old Solem school house, Donvers maniacs, a new kind of photography of M. I. T., Waverley imbeciles, rare flowers of the quarries, lions, 'n' tigers, 'n' everything of the Harvard Museum.

Here's Sam Cole, Helen Cassidy, Ellen Rittenburg, Ruth Hordy, and Eddie Edwards poring over some glass-cose specimens on the zoology class trip to Harvard. Must be simply fascinating.

"Hey! Come a little closer—I wanna tell you a secret. You look pretty trustworthy." But the walrus seems to doubt Bob Blougher's judgment.

The Christian Scholar

"The Christian Scholar", official publication of the college, has been published since March 1940 under the supervision of the Publicity Committee. It aims not only to

acquaint young men and women with the possibilities of Christian education, and to keep alumni and friends in close contact with the school, but also to provide material of interest for the Christian reader.

The "Scholar" was designed by alumni Edmund Silverbrand, who had charge of the make-up and printing, and Alvin Kauffman, originator of the cover design. Doctor Shrader has faithfully edited every issue, making it vital and readable. Professor Mann, president of the Alumni Association, has charge of two pages of alumni news to which Mr. Donald Tillotson has contributed largely.

The new paper has been successful in winning friends for E. N. C. Several students have said that they were influenced through the "Scholar" to come to school.

The circulation is about four thousand at present. It is hoped, when funds become available, that the size can be doubled in order to include topics of vital interest to intelligent Christian readers.

Campus Day

When you see enthusiastic E. N. C.-ers gaily dressed in old clothes and rushing out of the chapel at 8:30 in the morning, you have a strong indication that today is Campus Day. But if you want further evidence, watch for professors industriously raking leaves, for students braving briars and thorns to clear out a clump of bushes, for the strong-arm squad tackling the tennis court. Join

in with the mid-morning feast of coffee and doughnuts. Return in the afternoon to observe the fresh, newly-swept, and spring-like appearance of the grounds. This is your conclusive evidence of Campus Day.

Burned Out . . .

May 1, Junior-Senior Day, came this year with an unrelenting rain. Upperclassmen sputtered, but made the best of the situation, little thinking that in a few hours that same rain would prove a blessing—a factor in halting the spread of a disastrous fire at E. N. C. Seniors in caps and gowns marched up the chapel aisle between files of juniors, not knowing that they were to be the last class to have that privilege, not realizing that when they returned from their day's activities they would find a charred shell.

The Canterbury building had served as a chapel for E. N. C. with practise rooms and studios for the Fine Arts Department on second and third floors. The fire which swept the building the evening of May 1 left the framework standing but destroyed most of the interior by flames and smoke and water damage.

Students in the building escaped without injury. By quick-witted action, Norman Collins, Canadian student, rescued Isabelle Gardner from a window on the second floor and held her on a rain gutter until fireman could raise a ladder to them.

Undaunted by the misfortune, faculty and students cooperated in adjusting themselves

ta crowded quarters and makeshifts, while constituency and friends aided with maney and gifts.

Firm in the belief that "all things wark together far good," E.N.C. trusts God's plan and praises Him for His unfailing mercy.

Making Progress . .

E. N. C. is naw empawered to grant two additional degrees, the Th.B. and the B.S. The Massachusetts legislature passed the bill granting the pawer during the first week of May at the recommendation of the State Baard of Education.

A cammittee fram the State Baard visited the campus during the winter and made a complete checkup of the college's facilities. After their survey, cammittee members told President Williamson that his representations af E. N. C.'s progress were taa madest.

Belaw we see the committee conferring with aur president in his office.

E. N. C.'s Spiritual Life

We cannat da justice ta E. N. C. without emphasizing her spiritual nature. For mast af us, life at E. N. C. is not worth while except as we strive ta fulfill Gad's plan in our lives. The sweet moments af prayer, the oppartunities and beauties revealed by wise leaders, the wholesome friendships, the sympathetic guidance, and spiritual nurturing have brcadened and deepened us.

The callege church finds a capable, wise pastar in Rev. Samuel Yaung, head af the Department of Theology. Sunday services and Wednesday evening prayer service are well attended, and aur Sunday School recard takes hanars in the zane. The N. Y. P. S., led by Lawrence Walker first semester and Warren Mingledarff secand semester, presents a service arranged and conducted whally by the yaung people.

Chapel services, held every schaal day but Friday, are a canstant source of uplift and inspiratian. Coming in the middle af the morning as they da, they provide refreshment in the busy student's life. Outside speakers (Dr. Orval J. Nease, Sang Evangelist Eddie Patzsch, Dr. U. E. Harding, and Rev. Raymond Browning were amang aur visitors this year) are welcamed enthusiastically—the students are always apen-minded and eager.

Above we see Mrs. E. E. Angell greeting Dr. Harding an his arrival.

But aur religion is nat confined to scheduled services; classes and programs invariably begin after Gad's blessing has been asked on the occasion. Spontaneity in singing hymns or gaspel charuses wherever we are—in the dining hall, on picnics and trips —

indicates that for us religion is not mere form, but an inseparable part of our lives. Girls' and boys' prayer-meetings are held nightly Tuesday through Friday, Monday night is reserved for class prayer-meetings, and the Evangelistic Association has a Saturday evening prayer service. Thursday has long been prayer day; students and teachers meet in the chapel at noon for a period of prayer and fasting. Do the students support all these efforts? Yes, they do. A consuming love of God and His work is the force which keeps many of them in school.

The opening convention in the fall with Rev. John E. Riley set a high standard for the year, a standard which students and faculty have been striving to achieve. With the Commencement address of Dr. Harold Paul Sloan we intend to close the 1941 school year on a triumphant note.

Young Women's Missionary Society

Officers of Y. W. M. S.

The second Monday of every month the Young Women's Missionary Society meets in the Munro Hall parlor.

Cooperation in attendance, participation by the girls, and a year's program worked out carefully in advance by the officers, have combined to make the meetings run smoothly and on schedule.

Devotional sessions varied from alphabet scripture verses on missions to a Bible quiz. Other special features have included readings, violin duets, piano selections and vocal numbers.

A Prayer and Fasting League has been organized to encourage systematic prayer and giving.

Moving pictures of India, particularly of Calcutta, visualized the land and people studied. The chapel message of Miss Elizabeth Earle brought us into intimate contact with the Christ-like spirit and faith of missionaries in India. In another chapel service the members shared their responses to Christ's call, "Follow me, and I will make you fishers of men."

"And the Holy Spirit moved among them . . ."

Rev. C. B. Cox of the Ohio district and Rev. T. M. Anderson (above) of Asbury College in fall and spring respectively, led Eastern Nazarene College to greater spiritual heights, and renewed and established pledges which will live long in students' hearts. These prayerful interims in the scurrying rush of campus activities contributed the necessary "lift" to hearts which needed it.

Faculty Additions . . .

Next year E. N. C.'s faculty is to be enriched from the pioneer-spirited West by two new professors. Albert F. Harper, Ph.D., comes to us after six years as Dean of Northwest Nazarene College. He will head the philosophy department. Kiowa County Junior College of Hobart, Oklahoma, sends E. N. C. its Dean, Prof. John R. Naylor, to teach mathematics and physics and serve as dean of men.

Spring is coming—Ken Pearsall looks over the athletic equipment and yells to Kano, “When will the courts be ready?”

ATHLETICS

Athletics at E. N. C.

Alpha Coach
Steve Lind

Beta Coach
Lee Powell

Gamma Coach
Carl Hanks

The sports program at E. N. C. is run on an inter-society basis. The Alpha-Beta-Gamma societies provide the competition under the joint supervision of the athletic director and the "N" Club. By the present system, the student athletic director, appointed by the Administration, does not participate in intramural sports, but officiates and arbitrates at games. Each society elects a coach to take full charge of its teams.

"N" Club

Among the athletes at E. N. C., a select few are elected each year to the "N" Club. Election to this organization is the highest athletic recognition obtainable, for members are chosen not only because of athletic ability, but also for their character, sportsmanship, and leadership.

The "N" Club serves as a sort of athletic commission to regulate the sports program of the year. It arranges the schedule of all contests and looks after the officiating at the games. Each year the club goes over the rules of football and basketball and revises them to meet any difficulties caused by our facilities or our system of intramural sports. The football rules were altered considerably this year to afford greater protection to the players and to make the game more interesting to the spectators.

All receipts at games are placed in charge of the club and the proceeds are used to buy athletic supplies. This arrangement is very convenient as the club members are the ones most interested in the purchasing of athletic equipment and are in a position to know best how the funds should be used.

Girls' "N" Club

In the past few years there has been considerable discussion concerning the formation of an honorary athletic organization for the women of the college. This year the men's "N" Club voted to form a women's branch. Seven of the outstanding women athletes were elected to membership and they will serve as the nucleus of the girls' "N" Club. Each year a very limited number of women basketball, softball and tennis players will be included in the club on much the same basis that the men are elected.

Betas Take Football Trophy

*First row: Heffern, Hammar, A. Wright
Second row: Greer, D. Powell, L. Powell, Mac Kay, Shay, Mason*

Hats off to the Betos this year! In winning their first inter-society football championship the Betos were easily the class of the college. Three newcomers to the squad, Dole Powell, Bill Mockoy, and Bill Shoy were largely responsible for the tremendous improvement in the Beto football fortunes. These three teamed up with Al Moson, far and away the best defensive man of the year, and Lee Powell, a fine running halfback, to form the basis of the Beto team. Coach Powell fielded a team with plenty of speed and power, and a world of deception. He employed a number of new formations—one,

especially, a spread formation, kept the Alphas and Gommos guessing.

The runner-up Gommos and the third place Alphas were both hard hit by graduation last June. Both teams were largely composed of inexperienced men and ineligibilities were a constant nightmare in the Alpha comp. The Gammas should be a much better team next year. They lost only John Nielson from their first string. On paper, at least, the Alphas face a tough year. Both ends Andreé and Les Jones, center Charlie Akers, and halfback Blaughter are leaving. Coach Lind will have to find some new talent over the summer or equip all his players with lead pipes next fall. The Beta team loses no one by graduation and should be plenty tough again next year.

Alpha-Beta game

Scores

October 2	Beta	19—Alpha	6
October 7	Gommo	14—Alpha	6
October 9	Beto	19—Gommo	6
October 14	Beto	13—Alpho	0
October 16	Gommo	6—Alpha	0
October 21	Alpho	6—Beto	6
October 23	Beta	8—Gamma	0
October 28	Alpho	24—Gommo	6
October 30	Beta	25—Gamma	0

Highlights of the Basketball Season

And again our hats are off to the Betas—for they also won the basketball championship this year. Again it was new blood that was responsible for the winning of their first inter-society basketball championship.

From an athletic standpoint the Betas started at the bottom of the heap after the organization of the new societies. The first year found the Alphas winning both the basketball and football trophies with the Gammas the runners-up in each sport. Last year the Gammas won the top spot in both major sports while the Betas had moved up to the runner-up position. And this year has

*R. Nielson, J. Nielson, Hanks, Parry, Calhoun
Missing: M. Parker, Dornon*

*Second Row: Hilliker, Andrews, Summerscales, Young
Front Row: Hawk, Lind, Haynes
Missing: M. Zimmerman, Scott, Howard, Restricks*

been their year to reach the end of the rainbow—both major championships won in a most convincing manner.

Dale Powell, brother to Beta Coach Lee Powell, turned out to be an ideal forward with speed, accuracy, and lots of "savvy." The Powell, Hammar, Powell combination controlled the offensive play from the first center jump to the final whistle of nearly every game. These three teamed up with a fine pair of guards, MacKay and Greer, to top the others completely.

The Gammas were injured, almost fatally, by the graduation of Bob Shoff, their coach and star. Without his "sparking" they showed a lack of coordination and experience. However, the Gammas are a young team, only

one senior in the regular lineup, and in Hanks and Parry have a fine nucleus to build around. Both have great competitive spirits and Parry has a knack of sinking the most unbelievable shots with nonchalance.

The Alphas faced the same old nemesis—graduation and inelegibilities. Lind and Scott were the only two men of any real experience who returned this year. While they were both good enough to rate the All-Star squad, they lacked the necessary support. Two newcomers to the Alphas look very good. These two, Haynes and Zimmerman, although both small, are very fast and will bear watching. They will, with Lind, who is a really fine athlete, be the storm center of any Alpha threat next year.

The basketball crown is the most coveted prize of all our athletic competition. Football and baseball must of necessity be confined to a short season and be played in the afternoons. Basketball, however, enjoys a much longer season and many of the games are played as Friday night headliners. Con-

Alpha Beta tussel—"Red" Hammar rises to sink another Beta goal in their victorious series.

sequently they draw larger crowds and are more widely publicized. And so while the NAUTILUS staff congratulates the Beta Society upon its success, here's hoping to see the Alphas and Gammas even up things next year in the interest of a better sports program at E. N. C.

Standing: Greer, Heffern, Hammar, L. Powell, Shay, Mac Kay, A. Wright

Gamma Girls Win

The girls staged a hotly contested race for the championship trophy, but the Gamma Society upset the dope and beat the Alphas to bring home the prize. And the Beta lassies threw in a couple of fireworks along the way that gave both the other teams some trouble.

On paper the Alphas looked the top team—experienced veterans, enough high scoring stars and good reserves. However, the Gamma girls didn't believe all they heard and proceeded to team up the Shoff sisters and Irma Koffel to form the strongest combination seen around here for several years. A. M. Shoff was the spearhead of the attack. From her center position she played driving heads-up ball. Sister Louise is the same type of player, and Koffel is a slick ball handler.

All three teams turned out in new uniforms this winter and played the most consistently

good basketball that has been displayed here yet. The improvement was reflected in the increase in the number of spectators. At the end of the season the girls, in their preliminary games, were attracting almost as large crowds as the fellows.

Scores

November 29	Gamma 30—Alpha	27

March 7	Gamma 34—Beta	17

Sport Lights . . .

In addition to the varsity competition in basketball, football, and baseball, which is limited to a comparatively small number, students may participate in several other sports at E. N. C.

The athletic policy of the college has been to provide wholesome recreation and exercise for every student. The three societies accomplish this purpose to a certain degree. For other students, facilities are provided for tennis and croquet as well as skating, softball, and baseball. This year an enthusiastic group of fellows organized themselves into the "musclebuilders," weight-lifters under the direction of Austin Wright.

Tennis is perhaps the most popular game and is played by more students than any other. Shiro Kano, the defending singles champion, was eliminated in the quarter finals of the spring tournament. The finalists were Freddy Haynes and George Dixon. George went on to take the championship. The playing space has been rearranged to provide four courts.

Ping pong is the one sport that is played the year round and the two tables in the ping pong room get a real workout. Each year the ping pong tournament draws an entry of approximately fifty. Beta coach Lee Powell won the men's championship this spring and Ruth Anderson took the women's crown.

In the last two years quite a number of golfers have sprung up on campus. Vesy Stemm is the most rabid fan, but Bud Fisk is the unofficial champ. Boyd Davis has been doing some neat shooting this spring. From the stories they tell the quartet boys are regular "pros" all summer, but somehow their reputation fades after classes begin. At least it's a sure sign of spring when the fellows start to practice putting on the Mansion lawn. There are a number of nearby links which the fellows use.

Kano—defending tennis singles champion

Ruth Anderson—girls' ping pong champion

Lee Powell—boys' ping pong champion

Quartet boys play golf

"Reading maketh a full man, conference a ready man, and writing an exact man."—*Bacon*

BOOKS FOR THE LIBRARY AND
EQUIPMENT FOR THE
SCIENCE LABORATORIES

These are projects for 1941-42 to bring our equipment to standard educational levels in support of our enriched curriculum

EASTERN NAZARENE COLLEGE

offers

a curriculum of Christian Scholarship
an incentive to Christian leadership
an inspiration for Christian ideals
an opportunity for Christian service

Another Successful Yearbook . . .

. . . As a credit to all concerned, we sincerely congratulate the editorial and business staff for their fine co-operation—also to the printer and engraver for greatly assisting us to publish a book that is far superior in portrait quality than any ever before published.

The quality of work and the service rendered is the type of work produced by **Richard G. Mahoney** after 22 years of co-operation with editors of the finer annuals.

RICHARD G. MAHONEY
Mgr. School & College Dept.

DISTINCTION

Printing of College Magazines
and Year Books is best done by
those who have had years of
experience in doing such work.

Distinction in the design and in
the quality of work is assured
by our experience as printers
and publishers for more than
three-quarters of a century.
